EDUCATION

Elizade University, Ilara-Mokin, Nigeria

Bachelor of Engineering (B.Eng.) in Electrical & Electronics Engineering (2019 – 2024)

- Second Class Upper Honours
- Top 20% performer in the department

TECHNICAL SKILLS

Blockchain & Web3: Solana, Rust, TypeScript, Anchor Framework, Web3.js

Mobile Development: Dart, Flutter,GetX, Bloc State Management

Web: Next.js, HTML, CSS, REST APIs, Firebase Firestore

Backend & Cloud: Firebase, Google Cloud Services, Microsoft Azure

Tools: Git, GitHub

CERTIFICATIONS

- Microsoft Azure Fundamentals
- Rust Programming – Cyfrin Updraft

PROFESSIONAL EXPERIENCE

NNPC – Networking Department Intern, Abuja (Aug – Oct 2022)

- Reconnected data cables for telephony and routing services
- Troubleshoot and maintained network infrastructure
- Supported IT team operations

NNPCL – Application Development Intern, Abuja (Apr – Sep 2023)

- Developed web interfaces using HTML & CSS
- Assisted in application development and automation projects

Blockchain Developer (Solana) & Mobile Engineer (Oct 2023 – Present)

- Built full-stack decentralized applications on Solana
- Developed smart contracts using Anchor & Rust
- Integrated Next.js frontends with Solana programs
- Built Flutter mobile apps for IoT and automation systems

PROJECTS

On-Chain Voting Platform

- Decentralized voting system on Solana using Anchor
- TypeScript / Next.js frontend

NFT Minting Platform

- NFT minting and management using Metaplex

SPL Token Manager

- Token creation, minting, and transfers on Solana

CRUD Journal dApp

- On-chain data storage with Solana & Anchor

ADDITIONAL INFORMATION

- Strong interest in Web3, DeFi, NFTs, and decentralized systems
- Experienced in software–hardware integration
- Seeking roles in Blockchain, Web3, and Distributed Systems
